

Santachiara

Si narra di un lungo viaggio alla ricerca di semplicità di forme, di materiali puri, di delicatezza e di valori. In queste pagine si racconta di un percorso che ha condotto Santachiara, una collezione in vetro soffiato, ad essere disponibile in tre dimensioni come sospensione e in due dimensioni come lampada da tavolo, dove una base in legno e un sensore touch-dim ne supportano la forma. Collezione che si concentra sull'eleganza di un disegno che contempla in sé la bellezza di parole sussurrate.

The Santachiara collection tells the story of a long journey in search of simple shapes, pure and delicate materials and values. These pages talk about the journey that led Santachiara, a blown glass collection, to be available in three different sizes as a suspended lamp and two sizes as a table lamp, where a wooden base and a touch-dimmer sensor support the form. A collection that focuses on the elegance of a design that contemplates the beauty of whispered words.

Santachiara | Dati tecnici | Technical data

L'anima pura della lampada da tavolo Santachiara porta eleganza e armonia in ogni spazio. L'equilibrio delle proporzioni e l'estetica di due materiali ben accostati, come legno e vetro, sono elementi imprescindibili quando si tratta di arredare.

The pure soul of Santachiara table lamp brings elegance and harmony in every space. The balance of the proportions and the aesthetic of two well matched materials, like wood and glass, are essential elements when it comes to decorate.
